

On Wednesday, 11/25/09, I spoke with Dan Jenkins, from Environmental Restoration with Michelle Hartly also on the line. A privacy fence was discussed; at no time did I state that a fence would take care of my concerns of having ER as a neighbor. I stated during my conversation with Dan that I want to be relocated and that a fence does not solve the voluminous amount of dust and dirt blown around the neighborhood by ER. I also stated that the dirty, broken equipment is bringing hazardous materials back onto the site and inches from my home. I stated that in a written correspondence to Mr. Linnert, of which I have copies. I spoke with Mr. Linnert and Mike Cirrien in my front yard and at NO time did I indicate that a privacy fence and moving ER's dirty, broken equipment around in the ER yard would satisfy my concerns and my disgust at regarding the my interaction with EPA and ER. I do not have any confidence in Mr. Linnert listening to my concerns as I have a copy of "Marketing the Message in Libby" I for one do not need Mr. Linnert's social marketing, his goal in Libby is to "change public behavior" I am not interested in drinking Ted's Kool-Aid. I stated many times that I want to be relocated. A fence is a start as it will keep the unsightly broken, dirty equipment out of view but that it does not fix the dust problem and the hazardous material that has been transported back and forth on the ER equipment nor does it protect or our health of the neighborhood and community. It appears that the privacy fence is another short term, cheap fix. The EPA has an obligation to protect the health and well being of the citizens of Libby. I unequivocally state that has NOT been my experience, instead, Mr Linnert and Mr Cirrien are putting words in my mouth. I AM REQUESTING RELOCATION BY THE EPA AND/OR ER. I am sorry if I can not be any clearer than that.

Respectfully,

Suzanne M. Rios

State of Montana
County of Lincoln
